Here's a rare opportunity to own a gelding that carries the history, experience, and unmistakable brand of one of America's great ranches. "Shinedown" proudly packs the Tongue River Ranch brand and has spent every day since he was two years old earning his keep across thousands of acres of real ranch country.

Standing 15.1 hands and weighing 1,300 pounds, Shinedown has the substance and bone you want in a working gelding, paired with a gorgeous baby-doll head, kind eye, and plenty of presence. In fact, he was recently the cover model for The Working Ranch magazine. He's an in-your-pocket horse—gentle, personable, and the kind you look forward to saddling every morning.

Shinedown has experienced every aspect of ranch life, from long days covering big country to gathering, sorting, and dragging calves to the fire at brandings. He has the miles that simply cannot be manufactured in an arena.

For a big, stout horse, he is exceptionally light and enjoyable to ride. He has a smooth little pitter-patter trot, lopes effortlessly out of his tracks, and will roll back over his hocks and ride around one-handed. He combines the size, strength, and ranch experience to make an outstanding head horse prospect with the handle and disposition to be enjoyed far beyond the roping pen.

Whether you're looking for your next head horse, a dependable ranch gelding, or simply want to own an exceptional horse carrying a piece of authentic Western history, Shinedown checks the boxes. Horses with his combination of size, experience, disposition, and provenance are hard to find.

PONY/CROSS BLUE ROAN GELD 6 YRS OLD
CONSIGNER:

Piston is a 4 year old bay roan welch pony quarter horse cross gelding. He stands 55 inches or 13.3 hands tall.

I have had Piston for over two years. I've done all the training on him from halter breaking him to lead, saddling and riding him to harness and hitching him to the buggy. I have been the only trainer he has had for two years.

I have hauled piston to lots of events, barrel races, rodeo just to ride him in the warm-up arena and parking lots and of course I've always had to show him off and impressed the kids with the laydown trick.

I have been shooting off of him for over a year. He is an awesome shooting horse. He will not Duck or veer off and will stay true on the rundown.

Piston's got a good one hand neck rein and a stop to die for. He loves to drag his butt and it's very smooth.

Piston is an awesome pulling horse. He handles all equipment very good with no problem. He will lean in to the collar for an easy start and can stop it with no problems. If you can hold the driving lines you can drive piston. He's very easy to get along with.

Piston is finished on the laydown Trick and started on the sit-up as well.

I have taken him and used him outside, penning cattle up out of the woods and brush country. He is not scared of any Livestock or wildlife that you may come up on. He crosses water , bridges , logs with ease. He is very highway traffic safe. He can be a little tricky to catch in a big pasture. Nothing bad just aggravating lol he is easy to wash, load, saddle, bridle you name it. He's a good boy for just a four-year-old. He has had lots of miles on him. He ties very great with no issues. He gets along great with others in the pasture or side-by-side while being hauled on a trailer no kicking no fighting. He is very sweet to his neighbor.

I trust this little horse 100% and he has got a heart the size of Texas. He is always willing and ready for a full days work no matter what the task is.

If you are looking for a small horse for a youth to grow with and enjoy or for an older person that wants to just have fun on a little horse that's reliable and easy to get on don't miss piston. He's a one-of-a-kind little guy. I know he's still young, but he is very smart and wants to please. He is very reliable and the same Horse every time you catch him. He is a young horse with an old soul.

I have started roping the dummy off of him and he is tracking it very well and handling everything with ease.

Piston is ready to go on and do whatever you want to do with him. He has enough handle and control to go any direction if you wanted a little play day horse or a 4H project or just wanna have fun on the trails or along beside the highway, he is a good boy.

“Goldie” is a beautiful 2-year-old mare standing 14.2 hands with the breeding, mind, and athletic ability to go in a variety of directions. I have owned her since a young yearling and I have done all the riding on her. She stands tied, bathes, picks up all feet, loads and unloads with ease and trailers well.

Goldie has an excellent attitude, is willing to learn, and has progressed quickly in her training. She will walk, trot, and lope, knows her leads, spins, and has a big stop. She is showing the kind of natural ability and willingness you want to see in a young performance prospect.

Goldie is sired by ARC TIME TO STRIKE, a well-known son of ONE TIME PEPTO, an NCHA earner of \$331,197. ARC TIME TO STRIKE offspring have gone on to excel in multiple cow horse and reining events. On the dam side, RUFUS CAT adds even more performance pedigree as an NCHA money earner and producer of successful cow horse competitors.

Meet Jax — a stunning 8-year-old red roan gelding who turns heads wherever he goes! Standing 14.2 hands and weighing over 1,100 lbs., he is thick-made, compact, solid, and dependable, with a gorgeous mane and tail.

Jax is one of those geldings you could search a lifetime to find. He is the perfect size for riders of any age to go out and have some fun on! Jax has a good pedigree, a great mind, and all the ability you could ask for. Plus, he is extremely quiet and gentle.

We honestly cannot say enough good things about Jax!

He is easy to ride and enjoyable in the arena. He stands to be mounted, walks off nicely every time, has a nice jog, lopez circles, rides on a loose rein, and neck reins. He has a nice stop, knows leg cues, side passes, and backs up. Jax has smooth transitions, is soft in the face, and takes both leads with ease.

He also rides English and moves beautifully under saddle — a real head-turner in any tack!

Jax has seen lots of outside miles as well. He crosses water, goes up and down hills, steps over logs, and travels through the mud. He is steady and confident on the trail, crosses obstacles willingly, and handles new situations with a calm, willing attitude.

Jax has also been started on the heel side. He has roped cattle and the sled out of the box and is coming along great. He has plenty of run and is good in the box. He has also been used to gather and sort cattle in the pasture.

On the ground, Jax loves attention and is easy to catch. He stands tied all day and stands quietly to be brushed, saddled, and bridled. He is super sweet, stands well for the farrier and veterinarian, loads easily, and hauls well. He does well in a stall or pasture and gets along with both mares and geldings.

Jax is a great, solid, sound, all-around gelding with the looks, mind, ability, and disposition everyone is looking for!

Easy to catch, good to haul, good with other horses. No buck or anything like that. He’s same horse every time you ride him. He is a cribber but it’s controlled with a collar, and he does get a TMJ injection It helps with the cribbing. If you’re in the market, looking for a finished Barrel Horse, and you like the free runner type this is one I definitely would take a look at. Stands 15.1 hands tall.

Tabasco is a draft cross gelding. Half shire and half quarter horse his dad is a superior stallion with champion blood lines for showing and working his mom is a daughter of a world champion cutting horse by the name of SMART LITTLE LENA.

Tobasco is four years old and he stands 15 hands tall I have been riding him now for over a year off and he is super gentle and laid back. He is just a loving kind of horse he never meets a stranger. He wants to be your friend no matter where you're at from the field to the arena, he's your buddy. He likes treats and getting groomed.

I have hitched Tobasco to my cart and wagon for months now. He has no problem handling it at all turning it, pulling it, or stopping it it's like second nature to him.

Tobasco has the prettiest canter you will find in a horse. He catch's his leads very easy and he will stay collected all along. Let me say it's very smooth for a draft cross.

I have roped the dummy off of him a lot. He will track it good and he don't mind taking a jerk from the dummy. He is strong to the horn for pulling and dragging things around.

I have shot guns off of him with no problems He's making a cool shooting horse he will not duck or shy from the gun shot he will stay true and go right down the middle to give you that honest shot.

Tobasco is built to last and very smart for learning things. If you're looking for that gentle, safe horse that's only 4 years old and will last a long time, Check out Tobasco!

This is a big dun gelding that was raised at Angola Prison. He has been turned out for several years because the inmates needed to ride younger horses. He was previously used to do all phases of ranch work where he would pull like a train and run a hole in the wind. He has been back at the barn now for about a month getting back to the ranch program. He is cinchy and not recommended for just anyone to handle. He has never had any sort of maintenance such as injections or chiropractor. He is very stout and stands 15.1 hands tall.

LOT NO.76 WAYLON
GRADE HAFLINGER GELDING 16 YRS OLD
CONSIGNER:

Waylon — 16-year-old, 14hh Haflinger.

Waylon is a been-there, done-that Haflinger with a ton of real-world experience. He has foxhunted for three seasons in 2nd and 3rd flight and has extensive trail experience. He is extremely solid on the trails with no spook under saddle. He will happily ride out alone and is equally comfortable leading or following when ridden in a group.

He has been through obstacle courses and will go through water, over bridges, across tarps, and more. He has been ridden both English and Western and also has a history of driving.

Waylon gets along well with other horses and is not mean in the pasture. He is barefoot with great feet, an easy keeper, requires no maintenance, and is UTD on everything. He cross-ties, trailer-ties, and high-line ties.

The important part: Waylon is a quirky horse on the ground and needs a very specific type of person. He is head and ear shy and very fearful of people if approached too quickly. He can be hard to catch and needs to be loaded onto a trailer a particular way. We believe he may have been mistreated in his past, which likely contributes to much of his fear and behavior on the ground.

Once Waylon trusts and bonds with his person, he improves considerably, but he still does best with slow, quiet, deliberate handling. He is the type of horse who really needs one consistent person who is willing to learn him and earn his trust.

He is not appropriate for a beginner or inexperienced handler. An experienced, patient horseperson who can appreciate his quirks while taking advantage of his extensive experience under saddle would be the best fit.

Despite his fearfulness on the ground, Waylon has no history of kicking, bucking, or biting.

He has a lot to offer the right person, but finding the right home and right match is the priority.

Take one look at this beautiful mare and it's easy to see why we fell in love with her.

Annie was purchased with one purpose in mind—to produce the kind of babies we wanted to raise, ride, and own. With Grays Starlight and Shining Spark in her pedigree, she carries a cross that is becoming increasingly hard to find. We've ridden numerous horses bred this way over the years and have loved every one of them.

We have owned Annie for the past four years, and she has been everything we hoped she would be.

In 2024, we bred her to \$11 Million Sire Slick By Design, and she produced a gorgeous black filly.

In 2025, she was bred to up and coming barrel stallion No Apologiez and gave us a beautiful palomino filly.

Annie is a true lady in every sense. She is easy to handle, easy to breed, an excellent mother, and a pleasure to have around. She is an easy keeper, gets along well with other horses, and has been well cared for and maintained throughout our ownership.

She has a reining handle, but we are offering her broodmare sound only. We do keep front shoes on her.

Annie has just weaned this year's filly and is OPEN for the 2027 breeding season, giving her new owner the opportunity to choose the stallion and cross they want.

The only reason Annie is being offered for sale is simple—she has done exactly what we purchased her to do. We have two beautiful fillies from her to carry forward in our program, and we feel it's time for Annie to become an asset to another breeding program.

If you've been looking for a mare with an outstanding pedigree, beautiful foals, and the kind of disposition that makes breeding and raising babies enjoyable, Annie deserves a serious look.

Pick the stallion of your dreams—and let Annie help you build your dream baby.

*Half American Cream Draft Mare! **

Jokers Clarann Cream, affectionately known as Zinnia, is a 15-year-old North American Spotted Draft mare who is truly one-of-a-kind. She is half American Cream Draft, a rare breed, and half American Paint.

Zinnia definitely lives up to the American Cream's reputation as a "gentle giant". She is incredibly eye-catching, with beautiful palomino-gold coloring in the winter that lightens to a lovely cream coloration in the summer. Standing 15.2 hands and STOUT, she has plenty of substance and presence.

Zinnia rides quietly both in the arena and out on the trails. She is suitable for most anyone who is comfortable sitting in the saddle and is a wonderful, dependable mare to have around.

She absolutely loves attention, grooming, and being doted on. Zinnia is also good for both the farrier and veterinarian, making her a pleasure to handle and care for. She is well behaved turned out with others or alone in a stall.

If you're looking for a beautiful, gentle, substantial mare with a sweet personality and an unusual pedigree, Zinnia deserves a look!

Denver is a 11 year old paint Welch pony quarter horse cross gelding.
He stands 55 inches tall. 13.3 hands tall.

Denver is an all-around kind of guy. He is broke enough for the small kiddos to ride anywhere and the adults really can have a good time on him. 😊

Denver rides really good in the woods and on the trails. He has no problem crossing water, logs, bridges and will go thru the marsh land and brush country with no problem. He is traffic safe for riding on the highway and in parades. Denver is not scared of wildlife or livestock if you were to come up on some while riding.

He has an easy one hand neck rein, an awesome stop and an easy back up. He will stay collected at all times. Denver catches his leads very well both ways.

I have roped the dummy off of him a lot. He’s got no problem crossing water, tracking the dummy, or taking a jerk. He is strong to the horn for pulling. I have used him to pen up cattle and sort calves in the catch pen

Denver is trained to pull a wagon or buggy. He will work in all positions single double or triple hitch on the roadside or the ditch side. He is always willing and ready for a day’s work. Denver is up to date on coggins test, vaccinations, and deworming. He also has a current health exam.

He is looking for his new cowboy!

2014 AQHA sorrel gelding standing 15 hands tall. "Streak" is a big ranch boy who is ready to go in any direction you want to take him. He likes and needs to work and has the sweetest, willing personality.

He is a been-there, done-that horse. From trail riding, moving cattle, checking fences, roping obstacles, and turning back for cutters, we have done it all with Streak. With his great running bloodlines, he could certainly excel in barrels, poles, or other speed events!

He has been roped off of but is not a finished roper. However, he seems to be a good candidate for breakaway or heeling.

Through no fault of his own, he was turned out to pasture for about two years and was not ridden very often. For the last 90 days, he has been with trainer Derrick Norwood, so this horse is broke! He works off loose reins and leg pressure, stops, spins, and rolls back as one should.

That being said, Streak is a horse that needs to be worked and have a job. If he is not used regularly, he can be a bit sour and cinchy when getting started again. He is not a horse for a beginner, child, or grandma.

Streak is an amazing horse with all the buttons you need for ranch work or other disciplines. He is certainly a horse that can work hard all day, every day.

He is up to date on all vaccinations, has a negative Coggins, and requires no maintenance. He runs in the pasture with other horses and is at the bottom of the herd.

Stands for saddling, bathing, worming, and the farrier (barefoot, size 1 hoof). Loads and unloads from the trailer easily.

Don't miss out on this big, sweet, hardworking guy!

and out of Haidas B Back (\$25,293.40 NCHA). Originally
trained and shown by Angie Solerio, he has been with the
same family since he was five years old.

This gelding has been a trusted teacher for the
grandchildren, teaching them how to properly ride a well-
broke horse. He has been ridden extensively on the farm
and out on the big trails. Naturally talented and
exceptionally cowy, he will still work a cow and, with a
short tune-up, could make an excellent Junior High Cutter
in the show pen.

As gentle and safe as they come, he is currently being
ridden by a 9-year-old girl who absolutely loves him. A
special gelding with the talent, experience, and disposition
to make someone a wonderful partner both in and out of the
show pen.
